

In response to your December 24th letter about our 30 Day Post General Report, FEC-386821, we submit the following:
Three entries were coded with the incorrect election cycle resulting in errors in Column B figures in our report. This has been corrected by identifying and recoding these entries and filing an amended report, FEC-397161. All contributions and disbursements were originally reported in a timely fashion and this did not result in an underreporting of contributions or disbursements or in the acceptance of excessive contributions.
